## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-3, 6-9 and 18-20 are rejected under 35 U.S.C. 102(e) as being anticipated by Ganapathy et al (Ganapathy).

Ganapathy's Fig. 3 illustrates a multiplier-accumulator block (core processor 200) that includes a first multiplier (Multiplier 410 of Fig. 4) and a second multiplier (Multiplier 504A of Fig. 5A) which simultaneously operate in a first mode and a second mode respectively, when a 40 bit dyadic DSP instruction is executed (see the abstract).

### ***Allowable Subject Matter***

3. Claims 10-17 are allowed.
4. Claims 4 and 5 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

***Specification***

5. The lengthy specification has not been checked to the extent necessary to determine the presence of all possible minor errors. Applicant's cooperation is requested in correcting any errors of which applicant may become aware in the specification.

***Conclusion***

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
